List each outcome included in the syllabus. Explain how your prior learning demonstrates all course learning outcomes, including specific details justifying your explanation. Address each of the course outcomes specifically. (You may need to insert additional cells.)

Learning Outcomes	Justification
Know the roles necessary and be able to apply the process required for implementing a successful training program.	The "Developing and Executing a Training Strategy" section of my essay outlines the process utilized to create and launch a successful training program.
Understand the importance of aligning business goals and success criteria as it relates to the success of a corporate training program.	The "Content Development" section of my essay describes how training material was developed based on business goals and regulatory requirements.
Know the components of a marketing/communication plan and be able to apply the communication process to the learners in a corporate setting.	The "Developing and Executing a Communication Strategy" section of my essay includes the components of the communication plan.
Understand the importance of measuring the results of a training program as it relates to the business values and be able to apply various methods to evaluate effectiveness of training programs.	The "Measuring Success" section of my essay outlines methods employed to measure effectiveness of the program. The "Developing and Executing a Training Strategy" section also includes a summary of feedback

	received that resulted in adjustments to the multi-year strategy in the spirit of continuous improvement.
