Course Description

This course will help students organize their financial lives by learning and implementing selected principles of accounting, finance, and management. The course will address value and risk determination by dealing specifically with the analysis of one's financial status, goal setting and planning, and decision making. Risk analysis, savings and investment principles, taxes, debt management, retirement, and estate considerations are areas which guide the financial management of individuals and businesses alike.

Learning Outcomes

After completing this course, you will be able to:

- Analyze and apply knowledge and theories of financial planning.
- Apply skills for effective decision-making in financial planning.
- Investigate financial problems using quantitative methods.
- Complete all parts of a comprehensive financial plan.

If in a SCPS competence program, (BAIFA, BAC, BAGB, BAECE), this course addresses the following requirements:

Competence	Competence Statement / Criteria
H3X	Can employ forecasting techniques to project trends and anticipate the future.
S1X	Can understand general computing principles and solve problems

	using computer-based financial applications.
FX	Can employ specific accounting, finance, and management skills to determine, analyze, and monitor your financial position.

Learning Strategies and Resources

Some learning activities, assignments and deadlines will vary depending on the delivery format of the course and may differ slightly from what is presented in this document.

Through class discussions, readings, internet research, and homework assignments, students will learn how to organize their financial lives in order to increase their probability of reaching their financial goals while minimizing personal risk and costs. By applying business concepts and practices to one's personal life students will have the knowledge to plan, monitor, and positively contribute to financial health.

Required Readings

Books and learning materials are available at the DePaul bookstore, at <http://depaul-loop.bncollege.com>, or through alternative sources.

Making the Most of Your Money Now, Jane Bryant Quinn, Simon & Schuster, December 2009 ISBN: 978-0-7432-6996-4

Additional materials in D2L will be used to supplement the text.

Learning Deliverables

Students will complete weekly homework assignments to demonstrate that they understand that week's class material. They will also complete a short-term action plan to improve finances and a comprehensive financial plan and that will tie of the course's topics together in an organized, integrated binder. All assignments are due by the next class. Late assignments will cumulatively lose credit for each week that they are past due.
