The **MAAPS Program Guidebook** as well as other resources posted on the program’s website serve as the primary policy and procedure materials for the **Master of Arts Program in Applied Professional Studies (MAAPS)**. As such, their purpose is to promote understanding between and among ALL program participants (graduate students, staff, faculty, faculty mentors, professional advisors and outside assessors) and enhance a smooth progression for all throughout the curriculum.

At the beginning of each MAAPS cluster, a “hard-copy” of the **MAAPS Program Guidebook** (current version) is printed from the program website for purposes of discussion within the program’s early components (AP-501/Learning Plan Research & Development Seminar & AP-502/Learning Plan Review). Notwithstanding this “hard-copy” version of the guidebook, the guidebook’s *OFFICIAL* version is available on the program’s website.

All materials posted on the program’s website (including the **MAAPS Program Guidebook**, Graduate Registration Bulletin and an array of Student Resources) are the most recent and take precedence over all previous versions. Such materials are “in effect” unless otherwise superseded by University directives and/or more recent editions posted on the program website.
