

Join Us In Boston

A Domestic SNL Travel Course 12 -15 October, 2017

US Cities: Boston

Boston – Hub of the Solar System

Oliver Wendell Holmes

Boston is ambiguous. It is a world class city from a cultural and educational perspective, but diminutive when considering the standards set by New York or LA. It is rich and expensive, but poor in population. It is the go-to place for American history, but is also eclipsed by more famous locales such as Ellis Island and Washington DC. It has an ocean at its front door, but then so does Honolulu, where the weather is generally better!

No matter where you were born, if you live in America, you have been influenced by Boston and its tumultuous history. John and Abigail Adams, Alexander Graham Bell, Ben Franklin, Paul Revere and John Kennedy lived for a time in Boston, as did Emily Dickenson, Robert Frost, Ben Affleck, Malcolm X, and Aerosmith. The list of famous Bostonians is quite long, indeed.

What makes Boston tick? In this travel course centered on this most pivotal of US Cities, learners will walk the Freedom Trail, visit Boston's most famous art collections, and its equally famous North End. Issues such as Boston's creative citizenry, startling art collections, immigrant populations, famous universities and hospitals, and its connection to American history will be discussed. Competences: H4, A5, L10 & 11,

Feel free to contact one of the faculty to discuss your competence and travel choices.
