## STUDY: **TANZANIA**

Connecting with Africa: Cultural and Social Issues in East Africa

### **DECEMBER INTERSESSION PROGRAM**

This is your chance to go to East Africa!

Join us as we develop a fresh understanding of local peoples, the environment, and cultural practices in beautiful and natural Tanzania. The travel experience prepares students for life in an increasingly globalized world by engaging issues and questions of the East African experience, including foreign pressures and influences on indigenous values, social justice dilemmas like class marginalization and the impacts of globalization on lifestyles and economies. Simple observation serves as a powerful tool for uncovering deeper meanings in everyday events in the lives of Tanzanians. Participants' ongoing dialogue with local cultures and peoples raises consciousness on global issues of justice, peace, politics and traditions. Course destinations will include a safari, a trip to the island of Zanzibar, and a visit to a former slave town.

The class can be completed for eight credits, or three to four competences. Suggested competences are H5; A1H; H3B; A3E; FX; A1D, H1H, E1 & E2 L10 & L11. Non-SNL students will be registered for SNC 219 in the fall and SAP 200 in the winter. Ray Masha and Steffanie Triller Fry co-direct the course.

Please contact Steffanie Triller Fry at [stroller@depaul.edu](mailto:stroller@depaul.edu) or (312) 362-7361 for more information.

Financial aid and scholarships available.
